

HEALTHCARE FABRICS COLLECTION

Explore the finest selection of **Hospital Curtain** with us that are carefully crafted in harmony with market trends to replace existing reusable curtains in **Hospitals, Nursing Homes, Medical centres** and other **Healthcare institutions**. Our range is a cost effective alternative to buying other reusable curtains that fade with repeated washing.

We design our collection using **Proven Quality Fabrics** that are **Fire Retardant** and inhibit any kind of bacterial growth. Thus, using our Hospital Curtain ensures infection control at your facility is enhanced and the atmosphere also remains **germ free**, which is a prerequisite in healthcare areas.

ADVANTAGES OF THE HOSPITAL CUBICLE CURTAIN SYSTEM

- **Flame Resistant:** Window Techs fabrics resist combustion and will self-extinguish when the source of flame is removed.
- **Stain Resistant:** Most oils, greases and contaminants may be wiped off with soap, water or mild cleansers. Curtains are easily cleaned in place and maintain a fresh look.
- **Antistatic:** Window Techs fabrics are specially formulated with an enduring antistatic property.
- **Odor Resistant:** Window Techs fabrics have been treated to resist bacterial odors. Objectionable organic odors are decreased as a result of the active protection against odor-forming bacterial growth on fabric surfaces.
- **Durable:** Window Techs fabrics are incredibly strong, withstanding severe wear and abuse.
- **Antimicrobial to Protect the Fabric:** A controlled release system continually sends the antimicrobial agent to the fabric surface. This built-in protection lasts the life of the fabric.
- **Decorative:** Window Techs fabrics offer an attractive selection of contemporary colors with a crisp linen finish.
- **Economical:** Lower replacement costs, less inventory, minimal care and maintenance all add up to true economy.

MACHINE WASHED IN COLD WATER

SIZE AVAILABLE

- 7 FEET X 12 FEET
- 7 FEET X 4 FEET
- 7 FEET X 8 FEET

WE CAN DO CUSTOMIZED SIZES ALSO ACCORDING TO THE REQUIREMENT

FABRICS

SHIELD

Inherent Antimicrobial & flame retardant Curtain/Fabric Range

Trevira CS Bioactive has an inherent **flame retardant chemistry** combined with antimicrobial Effect. Achieved by modification to polyester, it provides a high level of flame retardancy & antimicrobial effect.

it is permanently antimicrobial because of the silver nano particles ingrained in it during production.

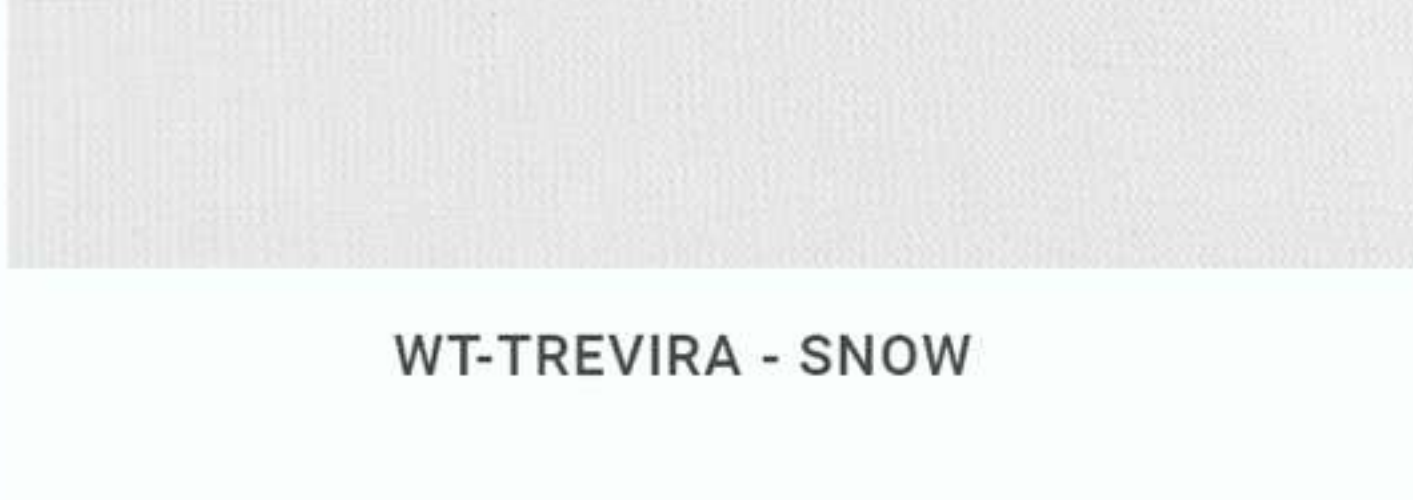

- PERMANENT ANTIMICROBIAL
- EFFECTIVE EVEN AFTER 100 WASH
- HIGH COLOUR BALANCE
- FIRE RETARDANT
- OEKOTEX 100 CERTIFIED

WT-TREVIRA - MARBLE

WT-TREVIRA - SNOW

REFRESH

Inherent Antimicrobial Textile perfect for Bed Linens, Curtains & Uniforms

Refresh is a unique, one of the kind fabrics for Uniforms, Bed Linen and Curtains from the renowned **Window Techs group**. After a series of poignant, in-depth and insightful analysis of the Indian health Market we realized the low benchmark for hygiene in the medical sector. This realization spurred us into action and led to the birth of this fabric.

Manufactured with **55% Polyester** and **45% viscous** material this wonder fabric passed the quantitative assessment of antimicrobial activity by **JISL 1902:2008** test method

- UNIFORM FABRIC
- EFFECTIVE EVEN AFTER 100 WASH
- HIGH COLOUR BALANCE
- PERMANENT ANTIMICROBIAL

WT-REFRESH WHITE- 001

WT-REFRESH BLUE- 001

ULTRA & ECOSTAIN

Coated Antimicrobial, flame Retardant, Stain/Water Repellent Economical Curtains

Ultra is an advanced fabric which is perfect alternative to shield fabric. Coated with an **antimicrobial/flame retardant** which can last up to **50** washes.

Ecostain economical curtains Manufactured using **100% Polyester** yard, coated by water repellent treatment, it does not absorb any liquid. The top woven mesh with 18 inch long free header, combined with our **2 nickel-pleated inlet**.

- 100% POLYESTER YARD
- WATER REPELLENT
- COATED ANTIMICROBIAL
- COATED FIRE RETARDANT
